Estimated AKNL colleagues,

Thanks so much for your communication and the details of it, but most importantly for the positive feedback and recommendations. I don't have any doubts at all that we at the GEF Secretariat and UNDP's will continue committed to contribute to the effective management of your countries important coastal ecosystems. Likewise, we will continue in close work and collaboration with the Government and additionally to our permanent openness and easy access for communication and exchanges with civil society we encourage our Agencies and local authorities for the full inclusion and participation of all interested stakeholders.

I am grateful that your organization stands ready to help us all with the national effort in protecting your precious natural capital and in the use of it for a bluer and greener recovery of the pandemic,

Sincerely,

M.Sc Carlos Manuel Rodríguez | GEF CEO
